All students must complete an upper-level writing intensive course.

You are not declared into a specific program. To receive the most accurate advice, you need to have your major formally declared by your advisor. You must meet the University, college, and departmental requirements for declaring the major and/or minor. Meanwhile, you can use the requirements listed below as a guide or use the What-If feature to create advice for the desired program of study. This advice should be used in coordination with advice from your advisor. Please note that the College of Arts & Letters requires foreign language proficiency through the 202 or 212 level for students pursuing Bachelor of Arts degrees.

○ 2024 Catalog Pending Approval	**Still needed:**	Degree Works has not yet been updated for your catalog year. Below you will see a degree plan for the 2023 catalog year. Please consult your academic advisor to confirm your program requirements. Once the 2024-2025 catalog has been finalized, Degree Works will update and you will no longer see this message.
○ 120 Credit Hours Required	**Still needed:**	You must complete a minimum of 120 credit hours. Some degree programs may require more than 120 hours.

Upper-Division General Education Requirements

INCOMPLETE

Catalog year: Fall 2023-Summer 2024

The default Upper-division general education requirement is Option D, which requires the completion of 6 credits of 300-400 level courses outside the college of your major and not required by your major. Study abroad courses, Military Science and Leadership courses (MSL), and Naval Science courses (NAVS) may be used to meet the Option D requirement for all students regardless of the student's major and college. Upper-division courses elected to meet the Philosophy and Ethics and Impact of Technology Ways of Knowing areas may also meet the requirement, but they must be outside the college and not required by the major. Option A: Approved Minor or Second Major or Second Degree; Option B: Approved Interdisciplinary Minor; Option C: Teacher Licensure. If you are completing a minor or double-major, please contact your advisor to have those officially declared in the system.

Description	Created on	Created by
Hi Mohamed, Per our meeting this morning: #I requested that CSC 208 is updated in DW to reflect the correct equivalency of CS 381, and it has been updated already; You can now register for CS 390 or 402 or any other CS course that has a CS 381 pre-requisite. #I will wait for you to send the syllabus for CSC 223 to send it to the faculty for reevaluation to see if you can receive credit for CS 361. #The Physics course you took did not transfer because you received a C-, and a grade of C or higher is needed to receive transfer credit at ODU. #The CHEM 105N that you are taking this spring will satisfy the technical elective requirement. I#m copying your CS advisor so you can follow up regarding declaring your major and a possible minor. Best, Tania Black	01/20/2026	BLACK, TANIA B
